1. If you want receive Updates for each ea then follow rules!!!
2. Until install ea please confirm that you are log of from mql5 on MT4 or MT5.

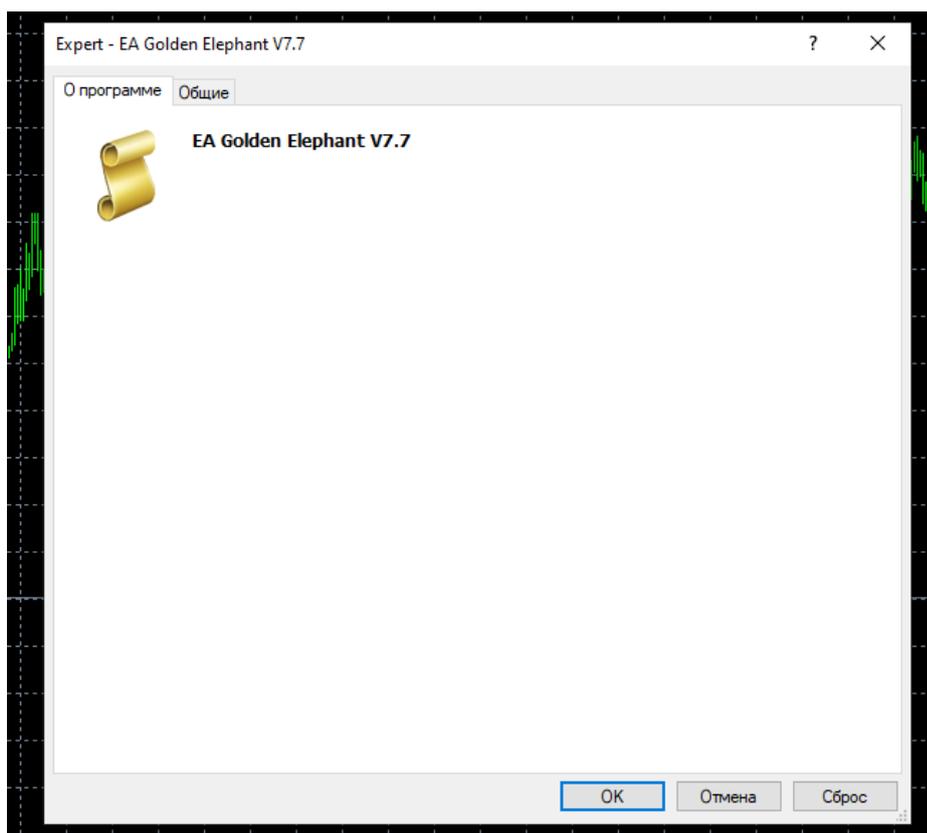

There must log off

A screenshot of a login page for the MQL5 community. The page has a light blue header with a user icon and the text "МАКСИМАЛЬНЫЕ ВОЗМОЖНОСТИ с сообществом MQL5". Below the header, there are several icons representing different aspects of the community. The main content area contains a login form with two input fields: "Логин" (Login) and "Пароль" (Password). There is a "Забыли?" (Forgot?) link below the password field. A large yellow button labeled "Логин" (Login) is positioned below the form. At the bottom of the page, there is a link to register: "Если у вас нет учетной записи, зарегистрируйтесь".

## Only after it install ea

If you are share ea for you friend/family etc. Send them this info and rules!!! Because if 1 mistake will cost updates for all us vps will be blocked and I can't install new updates.

If you not login in your account at broker ea will crashes and you will see this when open settings:

That's why 1<sup>st</sup> login in your broker account after install dll file:
