ARTISTS

MARTIN GARRIX

"Really cool packs. New thing from Vandalism is that they create sounds from existing tracks. You should check it out!"

ARMIN VAN BUUREN

"I'm really impressed by the programming of the Vandalism library. A lot of sounds are instantly usable and I like how they keep their sounds current but not overused. Every artist has a unique sound and I really ever use press as it is, but those are great as a start for instant inspiration. This is simply one of the best out there!"

R3HAB

"I love Vandalism banks! I have used them in so many projects!"

KSHMR

"I have used Vandalism in all of my recent work. If there are better soundbanks for Stylus1, I haven't found them."

MOTI

"I love Vandalism soundbanks. I use them in almost every project for lead sounds, to make rips or for the big synths in the breakdowns! Keep up the good work, I love it!"

TOM SWOON

"Vandalism banks are definitely top notch! Easily accessible super-fresh soundbanks suitable for most producers out there!"

LOST FREQUENCIES

"Vandalism is a cool way to come out with original sounds and tracks without spending tons of times working on your synths and samples! I will surely stay updated with all the new sample packs released!"

JAY HARDWAY

"Loving the Vandalism soundbanks because of the great quality of the sounds! With these sounds I immediately make your productions sound more clean and professional! They contain a lot of sounds which are perfect for layering as well!"

THOMAS GOLD

"I love the Vandalism soundbanks, the presets are always well crafted and sound absolutely great and up-to-date! Very inspiring stuff, I use them for my productions a lot!"
